## ZUSÄTZLICHE INFORMATIONEN

|                                    |                                          |
|------------------------------------|------------------------------------------|
| <b>Art</b>                         | Magnetron                                |
| <b>Hersteller-Artikel Nr.</b>      | MB1567A-170AB                            |
| <b>Leistung CW [W]</b>             | 2000                                     |
| <b>Frequenz [MHz]</b>              | 2450                                     |
| <b>ISM Band</b>                    | S-Band                                   |
| <b>Kühlungsart</b>                 | Luftgekühlt                              |
| <b>Ausrichtung Kühler</b>          | 90°                                      |
| <b>Befestigungsmöglichkeit</b>     | 4x Durchgangsbohrung Ø5,8 (keine Bolzen) |
| <b>Richtung Befestigungsbolzen</b> | 0°                                       |
| <b>Magnet</b>                      | Permanentmagnet                          |
| <b>Kühlwasser Anschluss</b>        | –                                        |
| <b>Temperaturwächter</b>           | –                                        |
